This material shall not constitute an offer to sell or a solicitation to buy, nor shall there be any sale of the securities in any jurisdiction in which such offer or sale is not permitted. An investment in any of the funds could suffer loss. Before making an investment in a fund, you should consider the investment objective, risks, charges and expenses of the fund, which together with other important information are included in the fund's most recent prospectus and other filings with the SEC. There can be no assurance that the investment objectives of any fund will be attained. Leverage creates risks which may adversely affect return, including the likelihood of greater volatility of net asset value and market price of common shares, and fluctuations in dividend rates on any preferred shares.
