Midstream/Energy Fund (KMF)

Overview as of 2/29/20

Symbol	KMF
Exchange	NYSE
CUSIP	48661E108
Inception Date	11/24/2010
Total Assets	\$760 million
Leverage	\$276 million
Monthly Distribution ¹ (\$/share)	\$0.075
% of Portfolio Assets with Call Options	0.6%

Objective

KMF is a closed-end fund whose investment objective is to provide a high level of total return with an emphasis on making cash distributions to its stockholders. We seek to achieve that investment objective by investing at least 80% of our total assets in the securities of companies in the Midstream/Energy sector, consisting of: (a) Midstream Master Limited Partnerships ("MLPs"), (b) Midstream Companies, (c) Other MLPs and (d) Other Energy Companies. KMF anticipates that the majority of its investments will consist of equity investments in Midstream MLPs and Midstream Companies.

Investment Merits

- **Midstream Opportunities**
 - Opportunity to invest across the full value chain for the midstream sector through investments in midstream MLPs and midstream companies
 - Midstream sector is expected to generate attractive risk-adjusted returns for investors; companies are expected to generate stable cash flows from fee based assets with high barriers to entry
- **Attractive Fund Structure**
 - KMF issues a Form 1099 (no K-1)
 - Suitable for IRAs, foundations and tax-exempt accounts, because unlike direct holdings in MLPs, KMF does not generate unrelated business taxable income (UBTI)
 - KMF is a Regulated Investment Company (RIC) and, as such, does not pay income taxes at the fund level
- **Access to Private Investments**
 - KMF provides access to private investment opportunities not otherwise available to retail investors

¹ Payable on 3/31/20 (ex-date 3/18/20). (See "Information on Tax Character of Distributions" on page 2.)

² Assumes that distributions have been reinvested through the Dividend Reinvestment Plan (DRIP).

2020E ⁵	-	10%	-	90%	100%

Information on Tax Character of Distributions

Our distributions are treated as a taxable dividend (qualified dividends) to our common stockholders to the extent of our current and accumulated earnings and profits. If the distribution exceeds our current or accumulated earnings and profits, the distribution will be treated as a return of capital to our common stockholders to the extent of each stockholder's basis in our common stock, and then the amount of a distribution in excess of such stockholder's basis would be taxed as capital gain. Because the cash distributions received from the MLPs in our portfolio are expected to exceed the earnings and profits associated with owning such MLPs, a portion of our distributions may be paid from sources other than our current and accumulated earnings and profits. The table above left summarizes the tax character of our distributions for the past ten years. Common stockholders will receive a Form 1099-DIV from us, sample forms for each year can be found at www.kaynefunds.com/kmf. This information does not constitute, and should not be construed as, investment, tax, legal, or other professional advice and cannot be used or relied upon for the purpose of avoiding tax penalties.

³ Portfolio holdings are subject to change without notice. The mention of specific securities is not a recommendation or solicitation for any person to buy, sell or hold any particular security. You can obtain a complete listing of holdings by viewing our most recent quarterly or annual report at www.kaynefunds.com/kmf.

⁴ This table illustrates the growth of a hypothetical \$10,000 investment in the fund's common shares beginning on the inception date with all distributions reinvested through the Dividend Reinvestment Plan (DRIP). Ending values as of the dates shown in the table. Performance reflects the deduction of management fees and expenses but does not reflect transaction fees or broker commissions. Past performance is no guarantee of future results.

⁵ This estimate is based on our anticipated earnings and profits for fiscal 2020. The final determination of the tax character of distributions will be made in early 2021 and may differ substantially from this preliminary information.

⁶ The amount of distributions is not guaranteed and may vary depending on a number of factors, including changes in portfolio holdings and market conditions.

This fact sheet is provided for informational purposes only. This material shall not constitute an offer to sell or a solicitation to buy, nor shall there be any sale of any securities in any jurisdiction in which such offer or sale is not permitted. Closed-end funds, unlike open-end funds, are not continuously offered. After the initial public offering, shares are sold on the open market through a stock exchange. As with any other stock, total return and market value will fluctuate so that an investment, when sold, may be worth more or less than its original cost. Shares of closed-end funds frequently trade at a market price that is below their net asset value.

All investments involve risk, including possible loss of principal. An investment in the fund could suffer loss. The fund's concentration of investments in energy-related MLPs and midstream entities subjects it to the risks of MLPs, midstream entities and the energy sector, including the risks of declines in energy and commodity prices, decreases in energy demand, adverse weather conditions, natural or other disasters, changes in government regulation, and changes in tax laws. Leverage creates risks which may adversely affect return, including the likelihood of greater volatility of net asset value and market price of common shares and fluctuations in dividend rates on any preferred shares, and increases a shareholder's risk of loss. Before investing in the fund, you should consider the investment objective, risks, charges and expenses of the fund, which, together with other important information are included in the fund's most recent prospectus and other filings with the SEC, available at www.sec.gov. There can be no assurance that the fund's investment objectives will be attained.

Nothing contained in this communication is intended to recommend any investment policy or investment strategy or take into account the specific objectives or circumstances of any investor. Please consult with your investment, tax or legal adviser regarding your individual circumstances prior to investing.
