**CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS:** This report of Kayne Anderson Energy Infrastructure Fund, Inc. (the “Company”) contains “forward-looking statements” as defined under the U.S. federal securities laws. Generally, the words “believe,” “expect,” “intend,” “estimate,” “anticipate,” “project,” “will” and similar expressions identify forward-looking statements, which generally are not historical in nature. Forward-looking statements are subject to certain risks and uncertainties that could cause actual results to materially differ from the Company’s historical experience and its present expectations or projections indicated in any forward-looking statements. These risks include, but are not limited to, changes in economic and political conditions; regulatory and legal changes; energy infrastructure company industry risk; leverage risk; valuation risk; interest rate risk; tax risk; and other risks discussed in the Company’s filings with the Securities and Exchange Commission (“SEC”). You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. The Company undertakes no obligation to update or revise any forward-looking statements made herein. There is no assurance that the Company’s investment objectives will be attained.

All investments in securities involve risks, including the possible loss of principal. The value of an investment in the Company could be volatile, and you could suffer losses of some or a substantial portion of the amount invested. The Company’s concentration of investments in energy infrastructure companies subjects it to the risks of midstream, renewable infrastructure and utility entities and the energy sector, including the risks of declines in energy and commodity prices, decreases in energy demand, adverse weather conditions, natural or other disasters, changes in government regulation, and changes in tax laws. Leverage creates risks that may adversely affect return, including the likelihood of greater volatility of net asset value and market price of common shares and fluctuations in distribution rates, which increases a stockholder’s risk of loss.

Performance data quoted in this report represent past performance and are for the stated time period only. Past performance is not a guarantee of future results. Current performance may be lower or higher than that shown based on market fluctuations from the end of the reported period.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**LETTER TO STOCKHOLDERS**

March 28, 2024

Dear Fellow Stockholders,

This quarterly update discusses the energy infrastructure markets, KYN's portfolio, and the Company's year-to-date performance. We are pleased with KYN's performance thus far in 2024 and remain excited about the prospects for the Company's investments. The fundamentals for the domestic energy industry are sound, and the midstream industry continues to generate record levels of free cash flow.

As it relates to fiscal Q1:

- KYN's Net Asset Return was 4.2% on the heels of an 8.7% Net Asset Return in fiscal 2023;<sup>(1)</sup>
- KYN outpaced the Alerian Midstream Energy Index (AMNA) by 130 basis points;<sup>(2)</sup>
- KYN's performance exceeded the broad energy sector (as measured by the XLE) by 140 basis points; and<sup>(3)</sup>
- KYN maintained conservative leverage levels with ample downside cushion.<sup>(4)</sup>

**Performance**

KYN's midstream investments generated solid returns during the quarter as Q4 earnings reports and 2024 guidance for the sector were generally well received by investors. The market continues to reward companies with well-articulated plans to return capital to investors. For example, Western Midstream (WES), one of KYN's top 10 holdings, announced the sale of certain non-core assets during the quarter and announced plans to increase its distribution by approximately 50% next quarter. Investors applauded this decision — the stock traded up 12% over the next two trading days. In general, management teams continue to be responsive to investors' requests for clear and compelling return of capital frameworks and disciplined capital spending programs.

Midstream equities continued their recent trend of outperformance relative to utility and renewable infrastructure equities. As discussed in prior communications, we expect the vast majority of our portfolio will continue to be allocated to midstream companies, with the remainder allocated to other energy companies, utilities, and renewable infrastructure companies. We will continue to pick our spots within utilities and renewable infrastructure, specifically seeking exposure to well-run companies poised to recover from last year's selloff. Our "other energy" basket — which as of February 29<sup>th</sup> consisted of Phillips 66 (PSX), Shell (SHEL) and ExxonMobil (XOM)—generated very strong returns in fiscal Q1, contributing to KYN's meaningful outperformance versus the AMNA.

<b>Comparison of Returns in Fiscal Q1 2024<sup>(5)</sup></b>	<b>Returns</b>	<b>% of Portfolio<sup>(6)</sup></b>
<b>KYN Net Asset Return<sup>(1)</sup></b>	4.2%	
<b>Midstream Benchmark<sup>(7)</sup></b>	2.9%	92%
<b>Utilities/Renewable Infrastructure Benchmarks<sup>(8),(9)</sup></b>	-0.1%/-6.6%	4%

KYN's Market Return, which is based on stock price performance rather than net asset value, was 9.7% for fiscal Q1.<sup>10</sup> This exceeded our Net Asset Return as our stock price traded at a 14.2% discount to NAV

---

*Note: relevant footnotes can be found on page 6.*

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**LETTER TO STOCKHOLDERS**

at fiscal quarter-end compared to a 18.5% discount at the beginning of the period. We believe technical factors in the later part of fiscal 2023 (associated with KYN’s merger with Kayne Anderson NextGen Energy & Infrastructure, Inc.) impacted KYN’s price-to-NAV discount at the end of last year. We continue to believe consistent performance, a substantial return of cash to stockholders (through attractive quarterly distributions), and strategic transactions that are accretive to our stockholders will be rewarded over time in the form of a narrowing discount.

**Q1 Market Review**

It has been a very good run for the last 12 months — driven by a buoyant U.S. economy and enthusiasm about the impact of artificial intelligence (or AI) — broader equity markets are at record highs as of this writing. Fourth quarter earnings results were better than expected, but NVIDIA and all things AI-related continue to capture the lion’s share of the market’s attention. As it related to the energy infrastructure sector, we are starting to see market participants “connect the dots” and attempt to quantify the impact AI could have on electricity demand (which is a tailwind for KYN’s portfolio).

Yields on the 10-year U.S. Treasury bond declined by 10 basis points during the quarter to end February at 4.24%. That statistic only tells part of the story — yields declined to as low as 3.79% at the end of December as market participants became more optimistic about the pace (and magnitude) of interest rate cuts by the Federal Reserve during 2024. Those expectations have become more muted over the last three months (the current market expectation is 75 bps of rate cuts this year vs. 125 bps at the start of 2024), but thus far, the equity markets have taken this news in stride. Inflation data — and the associated readthroughs for Fed policy — will continue to influence sentiment throughout fiscal 2024.

	Total Returns						
	Equity Market Indices			Energy Indices			
	S&P 500	DJIA	NASDAQ	AMNA <sup>(7)</sup>	XLU <sup>(8)</sup>	KRII <sup>(9)</sup>	XLE <sup>(3)</sup>
<b>Fiscal Q1</b>	12.0%	9.0%	13.3%	2.9%	-0.1%	-6.6%	2.8%
<b>Last Twelve Months</b>	30.5%	22.0%	41.6%	16.9%	-1.3%	-16.5%	6.7%

Over the last 12 months, the midstream sector has generated higher returns than other energy subsectors, and fiscal Q1 was a continuation of this trend. While some of this can reasonably be attributed to a “reversion to the mean” (XLE outperformed AMNA in 2021 and 2022), we view this trend as supportive of our belief that midstream has a unique go-forward value proposition. In our opinion, the midstream sector is an all-weather infrastructure asset class poised to grow free cash flow consistently over the next five years. Domestic production volumes and international demand — not commodity prices — are what drive cash flows for the Company’s midstream investments, and this outlook is achievable across an array of commodity price backdrops.

Investors are receptive to new equity offerings, and management teams (and sponsors) are taking advantage of these conditions. Over the span of five trading days in early March, Delek Logistics Partners (DKL) and Kinetik Holdings (KNTK) launched and priced overnight equity offerings at 13.6% and 8.6%

---

*Note: relevant footnotes can be found on page 6.*

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**LETTER TO STOCKHOLDERS**

discounts to the prior day's close, respectively. It was encouraging to see meaningful investor demand for these offerings, and we are pleased to see both stocks trade up from their offering price. KYN participated in both deals — it was an opportune time to increase the Company's exposure to the two companies.

Two large corporate M&A transactions have been announced in the midstream sector thus far in 2024: Sunoco LP (SUN) announced the \$7.3 billion acquisition of NuStar Energy L.P. (NS) and EQT Corporation (EQT) announced the \$13.0 billion acquisition of Equitrans Midstream (ETRN). Asset transactions have been busy as well, with several large M&A deals announced. We expect an increasingly active M&A market (particularly for asset deals) this year.

While the geopolitical backdrop remains unsettled, the global commodity trade marches on (albeit occasionally through indirect routes) and continues to accommodate record levels of U.S. production and exports. We expect global oil demand growth of ~1.4 million barrels per day (1.4% increase in demand on a year-over-year basis) to be met primarily with non-OPEC+ supply as the Saudis continue to secure OPEC+ supply reductions (in an effort on their part to target a Brent price band of \$70-\$90 per barrel). Spot WTI crude oil prices ended fiscal Q1 at \$79 per barrel — up ~\$3.50 per barrel over the quarter — and have settled above \$80 per barrel in the month of March. In the absence of a meaningful shift in OPEC+ policy, we expect slow, steady domestic production growth to continue through 2030 — a strong backdrop for the midstream sector.

Alternatively, domestic natural gas prices had a very challenging quarter driven by a warm winter and elevated inventory levels. Prices at the Henry Hub, which is the primary U.S. benchmark for natural gas prices, ended fiscal Q1 at \$1.67/MMBtu. The last time gas prices were this low was during the first half of 2020 (i.e., the depths of the pandemic). Deteriorating prices have prompted reductions in gas drilling and outright curtailments of supply by certain gas producers. While spot gas prices continue to hover at extremely challenging levels for producers with unhedged price exposure, the forward curve remains in steep contango (2025 forward prices >\$3.50/MMBtu) as markets anticipate a greater call on U.S. gas to supply LNG exports.

**Portfolio**

KYN's portfolio is comprised of 31 investments in 29 companies. Approximately 94% of the portfolio is invested in common equity with the remainder invested in preferred equity. The overwhelming majority of KYN's portfolio is invested in the midstream sector, which is a balanced mix of MLPs and midstream C-corps. We reduced exposure to utilities & renewable infrastructure names during the quarter while adding to our other energy holdings. We remain overweight large-cap midstream companies with integrated suites of assets that we believe are well positioned to benefit from growing domestic production and increased exports. KYN has two investments in privately-held midstream businesses (approximately 2.5% of the portfolio) — these investments are performing well and are well positioned to generate attractive returns.

---

*Note: relevant footnotes can be found on page 6.*

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.  
LETTER TO STOCKHOLDERS**

**KYN's Exposure by Subsector  
as of February 29, 2024**

**Distribution & Outlook**

We recently announced a quarterly distribution of 22 cents per share, up 5% vs. fiscal Q1 2023.<sup>11</sup> This represents a 9.6% distribution rate based on KYN's stock price as of February 29<sup>th</sup>.<sup>12</sup> We understand how important distributions are to our investors, and our goal is to steadily increase KYN's distribution over time as supported by the Company's operating results.

Despite a sustained period of excellent performance from midstream equities, trading multiples for KYN's top 10 midstream holdings are lower than year-ago levels. While many companies are trading near 52-week highs, this strong price performance is being supported by growth in underlying operating cash flows (vs. the sector "re-rating" to higher valuation levels). While we believe valuation levels for the sector are poised for improvement (and compare favorably to the broader equity markets), we believe midstream equities can generate mid-teens total returns without the benefit of multiple expansion.

We believe KYN — with its flexible investment mandate, permanent capital base, and expertise providing capital solutions to both public and private companies — is a very attractive means to receive diversified exposure to the North American energy infrastructure sector in an income-producing vehicle. The Company provides this exposure in an easy-to-own structure — daily liquidity via its NYSE listing, an attractive quarterly distribution, and the tax simplicity of a single Form 1099. Lastly, conservative leverage and active portfolio and risk management from an experienced portfolio management team sets the stage for a successful 2024 and beyond.

- 
- (1) Net Asset Return is defined as the change in net asset value per share plus cash distributions paid during the period (assuming reinvestment through our dividend reinvestment plan).
- (2) Relative performance commentary based on the difference between the Company's Net Asset Return and the total return of the Alerian Midstream Energy Index (AMNA).
- (3) The benchmark for the broad U.S. energy sector is the Energy Select Sector SPDR Fund (XLE), which is an exchange-traded fund ("ETF") linked to the Energy Select Sector Index (IXE), a subset of the S&P 500.
- (4) Downside cushion reflects the decrease in total asset value that could be sustained while maintaining compliance with leverage levels under the Investment Company Act of 1940, as amended, and KYN's financial covenants.
- (5) Fiscal Q1 2024 (12/1/23 – 2/29/24).
- (6) Weightings based on KYN's portfolio as of February 29, 2024. The remaining 4% of KYN's portfolio is invested in other energy companies.
- (7) The benchmark for the midstream sector is the AMNA.
- (8) The benchmark for the U.S. utility sector is the Utilities Select Sector SPDR Fund (XLU), which is an ETF linked to the Utilities Select Sector Index (IXU), a subset of the S&P 500.
- (9) The benchmark for the renewable infrastructure sector is the Kayne Anderson Renewable Infrastructure Index (KRIL), a market-cap weighted index of 35 domestic and international renewable infrastructure companies with individual constituents capped at a 5% weighting.
- (10) Market Return is defined as the change in share price plus cash distributions paid during the period (assuming reinvestment through our dividend reinvestment program).
- (11) Based on KYN's \$0.22/share distribution payable April 12, 2024 compared to \$0.21/share distribution paid April 17, 2023.
- (12) Based on KYN's annualized \$0.22/share distribution (\$0.88/share) and KYN's stock price of \$9.17/share as of February 29, 2024.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**MANAGEMENT DISCUSSION**  
**(UNAUDITED)**

**Company Overview**

Kayne Anderson Energy Infrastructure Fund, Inc. (the “Company” or “KYN”) is a non-diversified, closed-end fund that commenced operations in September 2004. Our investment objective is to provide a high after-tax total return with an emphasis on making cash distributions to stockholders. We intend to achieve our investment objective by investing at least 80% of our total assets in the securities of Energy Infrastructure Companies. Please refer to the Glossary of Key Terms for the meaning of capitalized terms not otherwise defined herein.

As of February 29, 2024, we had total assets of \$2.5 billion, net assets applicable to our common stockholders of \$1.8 billion (net asset value of \$10.69 per share), and 169.1 million shares of common stock outstanding.

**Our Top Ten Portfolio Investments<sup>(1)</sup>**

Listed below are our top ten portfolio investments by issuer as of February 29, 2024.

Holding	Category	Amount (\$ in millions)	Percent of Long-Term Investments
1. Enterprise Products Partners L.P. . . . .	Midstream Energy Company	\$ 268.8	10.9%

**Results of Operations — For the Three Months Ended February 29, 2024**

*Investment Income.* Investment income totaled \$19.6 million for the quarter. We received \$34.4 million of dividends and distributions. We estimated that \$14.8 million of the dividends and distributions received were return of capital distributions and/or distribution in excess of cost basis.

*Operating Expenses.* Operating expenses totaled \$15.7 million, including \$8.1 million of investment management fees (net of fee waivers), \$4.8 million of interest expense, \$1.7 million of preferred stock distributions and \$1.1 million of other operating expenses.

*Net Investment Income.* Our net investment income was \$3.5 million and included a deferred tax expense of \$0.4 million.

*Net Realized Losses.* We had net realized losses of \$35.6 million, consisting of realized losses from long term investments of \$46.3 million, \$1.1 million of realized gains from securities sold short, a current tax expense of \$1.3 million and a deferred tax benefit of \$10.9 million.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**MANAGEMENT DISCUSSION**  
**(UNAUDITED)**

*Net Change in Unrealized Gains.* We had a net increase in our unrealized gains of \$100.4 million. The net change consisted of a \$127.6 million increase in unrealized gains on investments and a deferred tax expense of \$27.2 million.

*Net Increase in Net Assets Resulting from Operations.* As a result of the above, we had a net increase in net assets resulting from operations of \$68.3 million.

**Distributions to Common Stockholders**

On March 26, 2024, KYN declared a quarterly distribution of \$0.22 per common share for the first quarter, which was paid on April 12, 2024. Payment of future distributions is subject to the approval of KYN's Board of Directors, as well as meeting the covenants of our debt agreements and terms of our preferred stock.

The Board of Directors considers several items in setting our distributions to common stockholders including net distributable income (as defined below), realized and unrealized gains and expected returns for portfolio investments.

Net distributable income ("NDI") is the amount of income received by us from our portfolio investments less operating expenses, subject to certain adjustments as described below. NDI is not a financial measure under the accounting principles generally accepted in the United States of America ("GAAP"). Refer to the Reconciliation of NDI to GAAP section for a reconciliation of this measure to our results reported under GAAP.

For the purposes of calculating NDI, income from portfolio investments includes (a) cash dividends and distributions, (b) paid-in-kind dividends received (*i.e.*, stock dividends), (c) interest income from debt securities and (d) net premiums received from the sale of covered calls.

For the purposes of calculating NDI, operating expenses include (a) investment management fees paid to our investment adviser, (b) other expenses (mostly comprised of fees paid to other service providers), (c) interest expense and preferred stock distributions and (d) current and deferred income tax expense/benefit on net investment income/loss.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**MANAGEMENT DISCUSSION**  
**(UNAUDITED)**

**Net Distributable Income (NDI)**  
(amounts in millions, except for per share amounts)

	<u>Three Months Ended February 29, 2024</u>
<b>Distributions and Other Income from Investments</b>	
Dividends and Distributions .....	\$ 34.4
<b>Expenses</b>	
Net Investment Management Fee .....	(8.1)
Other Expenses .....	(1.0)
Interest Expense .....	(4.8)
Preferred Stock Distributions .....	(1.7)
Income Tax Expense, net. ....	<u>(0.4)</u>
<b>Net Distributable Income (NDI) .....</b>	<b><u>\$ 18.4</u></b>
Weighted Shares Outstanding .....	169.1
<b>NDI per Weighted Share Outstanding .....</b>	<b><u>\$0.109</u></b>
<b>Adjusted NDI per Wtd. Share Outstanding<sup>(1)</sup> .....</b>	<b><u>\$0.112</u></b>

(1) Adjusted NDI includes distributions received from Atlantica Sustainable Infrastructure plc attributable to the first quarter of 2024 with an ex-dividend date of March 11, 2024 (\$0.5 million).

**Reconciliation of NDI to GAAP**

The difference between distributions and other income from investments in the NDI calculation and total investment income as reported in our Statement of Operations is reconciled as follows:

- A significant portion of the cash distributions received from our investments is characterized as return of capital. For GAAP purposes, return of capital distributions are excluded from investment income, whereas the NDI calculation includes the return of capital portion of such distributions.
- GAAP recognizes distributions received from our investments that exceed the cost basis of our securities to be realized gains and are therefore excluded from investment income, whereas the NDI calculation includes these distributions.
- We may sell covered call option contracts to generate income or to reduce our ownership of certain securities that we hold. In some cases, we are able to repurchase these call option contracts at a price less than the call premium that we received, thereby generating a profit. The premium we receive from selling call options, less (i) the premium that we pay to repurchase such call option contracts and (ii) the amount by which the market price of an underlying security is above the strike price at the time a new call option is written (if any), is included in NDI. For GAAP purposes, premiums received from call option contracts sold are not included in investment income. See Note 2 — Significant Accounting Policies for the GAAP treatment of option contracts.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**MANAGEMENT DISCUSSION**  
**(UNAUDITED)**

**Liquidity and Capital Resources**

At February 29, 2024, we had total leverage outstanding of \$515 million, which represented 20% of total assets. Our current policy is to utilize leverage in an amount that represents approximately 20% to 25% of our total assets. Total leverage was comprised of \$50 million of borrowings under our unsecured term loan (the “Term Loan”), \$312 million of senior unsecured notes (“Notes”) and \$153 million of mandatory redeemable preferred stock (“MRP Shares”). As of February 29, 2024, we did not have any borrowings outstanding under our unsecured revolving credit facility (the “Credit Facility”) and we had \$16 million of cash and cash equivalents. As of April 19, 2024, we had \$41 million of borrowings outstanding under our Credit Facility, \$50 million outstanding under our Term Loan and \$5 million of cash and cash equivalents.

On February 22, 2024, we entered into a \$135 million Credit Facility. The Credit Facility matures on February 20, 2025, and replaces our \$175 million unsecured revolving credit facility that was scheduled to mature on February 23, 2024. The interest rate on borrowings under the Credit Facility may vary between the secured overnight financing rate (“SOFR”) plus 1.40% and SOFR plus 2.25%, depending on our asset coverage ratios. We pay a fee of 0.20% per annum on any unused amounts of the Credit Facility.

Our \$50 million Term Loan has a three-year term, maturing August 6, 2024. The interest rate on \$25 million of the Term Loan is fixed at a rate of 1.735% and the interest rate on the remaining \$25 million is SOFR plus 1.40%. Amounts repaid under the Term Loan cannot be reborrowed.

As of February 29, 2024, we had \$312 million of Notes outstanding that mature between 2024 and 2034 and we had \$153 million of MRP Shares outstanding that are subject to mandatory redemption between 2024 and 2032. On February 21, 2024, we reached an agreement with institutional investors for the private placement of \$75 million of new Notes. This issuance is expected to close in May 2024 and is comprised of two series of Notes: (1) \$35 million Series WW Notes (5.65% fixed interest rate; May 2031 maturity) and (2) \$40 million Series XX Notes (5.79% fixed interest rate; May 2034 maturity). Proceeds from this issuance are expected to be used to refinance upcoming 2024 debt maturities.

At February 29, 2024, our asset coverage ratios under the Investment Company Act of 1940, as amended (“1940 Act”), were 642% for debt and 451% for total leverage (debt plus preferred stock). We target asset coverage ratios that give us the ability to withstand declines in the market value of the securities we hold before breaching the financial covenants in our leverage (we often refer to this as our “downside cushion”). At this time, we target asset coverage ratios that provide approximately 50% of downside cushion relative to our financial covenants. Our leverage targets are dependent on market conditions as well as certain other factors and may vary from time to time.

As of February 29, 2024, our total leverage consisted of 82% of fixed rate obligations and 18% of floating rate obligations. At such date, the weighted average interest/dividend rate on our total leverage was 4.57%.

- (1) Unless otherwise noted, equity investments are common units/common shares.
- (2) Refer to Glossary of Key Terms for definitions of Energy Company, Midstream Energy Company, Renewable Infrastructure Company and Utility Company.
- (3) Foreign security.
- (4) Fair valued on a recurring basis using significant unobservable inputs (Level 3). See Notes 2 and 3 in Notes to Financial Statements.
- (5) The Company's ability to sell this security is subject to certain legal or contractual restrictions. As of February 29, 2024, the aggregate value of restricted securities held by the Company was \$190,312 (7.6% of total assets). See Note 7 — Restricted Securities.
- (6) Enterprise Products Partners L.P. ("EPD") Series A Cumulative Convertible Preferred Units ("EPD Convertible Preferred Units") are senior to the common units in terms of liquidation preference and priority of distributions, and pay a distribution of 7.25% per annum. The EPD Convertible Preferred Units are convertible into EPD common units at any time after September 29, 2025 at the liquidation preference amount divided by 92.5% of the 5-day volume weighted average price of EPD's common units at such time. See Note 3 — Fair Value.
- (7) MPLX LP ("MPLX") Series A Convertible Preferred Units ("MPLX Convertible Preferred Units") are convertible on a one-for-one basis into common units of MPLX and are senior to the common units in terms of liquidation preference and priority of distributions. See Note 3 — Fair Value.
- (8) Sentinel Midstream Highline JV Holdings LLC ("Sentinel Midstream") is a privately-held company that operates energy infrastructure assets near the Texas and Louisiana Gulf Coast which are referred to as Enercoast Energy Infrastructure ("EEI"). The Company is the owner of Series A-2 units which represent a membership interest in Sentinel Midstream ("Sentinel-EEI Series A-2 Units"). The Sentinel-EEI Series A-2 Units are pari passu with Series A-1 Units (together, "Series A Units"), and are senior to other classes of common equity in terms of liquidation preference and priority of distributions. The Series A Units are entitled to receive cash distributions beginning in the quarter ending June 30, 2024. See Note 3 — Fair Value.
- (9) The Company believes that it is an affiliate of Sentinel Midstream and Streamline Innovations Holdings, Inc. ("Streamline"). See Note 5 — Agreements and Affiliations.
- (10) Security is non-income producing.

See accompanying notes to financial statements.

**SCHEDULE OF INVESTMENTS**  
**FEBRUARY 29, 2024**  
**(amounts in 000's)**  
**(UNAUDITED)**

- (11) Streamline is a privately-held company. Streamline Series C Preferred Shares are convertible into common equity at any time at the Company's option and are senior to common equity and Series A and Series B preferred shares in terms of liquidation preference and priority of distributions. Streamline Series C Preferred Shares are entitled to receive a quarterly dividend beginning on March 31, 2025, at an annual rate of 12.0%, which rate shall increase 2.0% each year thereafter to a maximum rate of 18.0%. Streamline Series C Preferred Shares are redeemable by Streamline at any time after March 31, 2025, at a price sufficient for the Company to achieve a 20.0% internal rate of return on its investment.
- (12) ADR — American Depositary Receipt.
- (13) The rate indicated is the yield as of February 29, 2024.

At February 29, 2024, the Company's geographic allocation was as follows:

<u>Geographic Location</u>	<u>% of Long-Term Investments</u>
United States . . . . .	89.7%
Canada . . . . .	8.2%
Europe/U.K. . . . .	2.1%

See accompanying notes to financial statements.

Beginning of period . . . . .	<u>1,777,558</u>	<u>1,448,022</u>
End of period . . . . .	<u>\$ 1,808,691</u>	<u>\$ 1,777,558</u>

- (1) Distributions on the Company's mandatory redeemable preferred stock ("MRP Shares") are treated as an operating expense under GAAP and are included in the calculation of net investment income (loss). See Note 2 — Significant Accounting Policies.
- (2) The characterization of the distributions paid to common stockholders for the three months ended February 29, 2024, as either dividends (eligible to be treated as qualified dividend income) or distributions (return of capital) is based solely on the Company's operating results during the period and does not reflect the expected results during the remainder of the fiscal year. The actual characterization of the common stock distributions made during the period will not be determinable until after the end of the fiscal year when the Company can determine its earnings and profits and may differ from this preliminary estimate.
- (3) Represents offering costs incurred in connection with the merger of Kayne Anderson NextGen Energy & Infrastructure, Inc.

See accompanying notes to financial statements.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**STATEMENT OF CASH FLOWS**  
**FOR THE THREE MONTHS ENDED FEBRUARY 29, 2024**  
(amounts in 000's)

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**FINANCIAL HIGHLIGHTS**  
**(amounts in 000's, except share and per share amounts)**

- (1) Based on average shares of common stock outstanding.
- (2) Distributions on the Company's MRP Shares are treated as an operating expense under GAAP and are included in the calculation of net investment income (loss). See Note 2 — Significant Accounting Policies.
- (3) The characterization of the distributions paid for the three months ended February 29, 2024, is based solely on the Company's operating results during the period and does not reflect the expected results during the remainder of the fiscal year. The actual characterization of the distributions made during the period will not be determinable until after the end of the fiscal year when the Company can determine its earnings and profits and may differ from this preliminary estimate. The information presented for each of the other periods is a characterization of the total distributions paid to common stockholders as either a dividend (eligible to be treated as qualified dividend income) or a distribution (return of capital) and is based on the Company's earnings and profits.
- (4) Represents offering costs incurred in connection with the merger of Kayne Anderson NextGen Energy & Infrastructure, Inc.
- (5) Total investment return based on market value is calculated assuming a purchase of common stock at the market price on the first day and a sale at the current market price on the last day of the period reported. The calculation also assumes reinvestment of distributions at actual prices pursuant to the Company's dividend reinvestment plan.
- (6) Not annualized.
- (7) Total investment return based on net asset value is calculated assuming a purchase of common stock at the net asset value on the first day and a sale at the net asset value on the last day of the period reported. The calculation also assumes reinvestment of distributions at actual prices pursuant to the Company's dividend reinvestment plan.
- (8) Unless otherwise noted, ratios are annualized.
- (9) For the fiscal years ended November 30, 2020, 2019, 2018, 2017 and 2015, the Company reported an income tax benefit of \$190,326 (17.9% of average net assets), \$43,357 (2.1% of average net assets), \$175,827 (8.3% of average net assets), \$86,746 (4.1% of average net assets) and \$980,647 (30.7% of average net assets), respectively. The income tax expense is assumed to be 0% because the Company reported a net deferred income tax benefit during the period.
- (10) Principal/liquidation value.
- (11) Calculated pursuant to section 18(a)(1)(A) of the 1940 Act. Represents the value of total assets less all liabilities not represented by Notes (principal value), or any other senior securities representing indebtedness and MRP Shares (liquidation value) divided by the aggregate amount of Notes and any other senior securities representing indebtedness. Under the 1940 Act, the Company may not declare or make any distribution on its common stock nor can it incur additional indebtedness if, at the time of such declaration or incurrence, its asset coverage with respect to senior securities representing indebtedness would be less than 300%.
- (12) Calculated pursuant to section 18(a)(2)(A) of the 1940 Act. Represents the value of total assets less all liabilities not represented by Notes (principal value), any other senior securities representing indebtedness and MRP Shares (liquidation value) divided by the aggregate amount of Notes, any other senior securities representing indebtedness and MRP Shares. Under the 1940 Act, the Company may not declare or make any distribution on its common stock nor can it issue additional preferred stock if at the time of such declaration or issuance, its asset coverage with respect to all senior securities would be less than 200%. In addition to the limitations under the 1940 Act, the Company, under the terms of its MRP Shares, would not be able to declare or pay any distributions on its common stock if such declaration would cause its asset coverage with respect to all senior securities to be less than 225%.
- (13) Represents offering costs incurred in connection with the merger of Kayne Anderson Energy Development Company.

See accompanying notes to financial statements.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**(amounts in 000's, except share and per share amounts)**  
**(UNAUDITED)**

**1. Organization**

Kayne Anderson Energy Infrastructure Fund, Inc. (the “Company” or “KYN”) was organized as a Maryland corporation on June 4, 2004, and is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Company’s investment objective is to provide a high after-tax total return with an emphasis on making cash distributions to shareholders. The Company intends to achieve this objective by investing at least 80% of its total assets in the securities of Energy Infrastructure Companies. The Company commenced operations on September 28, 2004. The Company’s shares of common stock are listed on the New York Stock Exchange, Inc. (“NYSE”) under the symbol “KYN.” For more information about the Company’s investment objective, policies and principal risks, see Investment Objective, Policies and Risks, in the Company’s most recently filed annual report.

On November 13, 2023, KYN completed its merger with Kayne Anderson NextGen Energy & Infrastructure, Inc. (“KMF”). Pursuant to the terms of the merger agreement, KMF was merged with and into KYN, and KMF stockholders received either newly issued common stock of KYN or cash. The merger qualified as a tax-free reorganization under Section 368(a) of the Internal Revenue Code.

**2. Significant Accounting Policies**

The following is a summary of the significant accounting policies that the Company uses to prepare its financial statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”). The Company is an investment company and follows accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 946 — “Financial Services — Investment Companies.”

A. *Use of Estimates* — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of income and expenses during the period. Actual results could differ materially from those estimates.

B. *Cash and Cash Equivalents* — Cash and cash equivalents include short-term, liquid investments with an original maturity of three months or less and include money market fund accounts.

C. *Calculation of Net Asset Value* — The Company determines its net asset value on a daily basis and reports its net asset value on its website. Net asset value is computed by dividing the value of the Company’s assets (including accrued interest and distributions and current and deferred income tax assets), less all of its liabilities (including accrued expenses, distributions payable, current and deferred accrued income taxes, and any borrowings) and the liquidation value of any outstanding preferred stock, by the total number of common shares outstanding.

D. *Investment Valuation* — Pursuant to Rule 2a-5, the Company’s Board of Directors (the “Board”) has designated KA Fund Advisors, LLC (“KAFA”), the Company’s investment adviser, as the “Valuation Designee” to perform fair value determinations of the Company’s portfolio holdings, subject to oversight by and periodic reporting to the Board. The Valuation Designee determines the fair value of the Company’s portfolio holdings in accordance with the Company’s valuation program, as adopted by the Board.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**(amounts in 000's, except share and per share amounts)**  
**(UNAUDITED)**

Readily marketable portfolio securities listed on any exchange (including a foreign exchange) other than the NASDAQ Stock Market, Inc. ("NASDAQ") are valued, except as indicated below, at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and ask prices on such day. Securities admitted to trade on the NASDAQ are valued at the NASDAQ official closing price. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. The value of foreign securities traded outside of the Americas may be adjusted to reflect events occurring after a foreign exchange closes that may affect the value of the foreign security. In such cases, these foreign securities are valued by an independent pricing service and are categorized as Level 2 securities for purposes of the fair value hierarchy. See Note 3 — Fair Value.

Equity securities traded in the over-the-counter market, but excluding securities admitted to trading on the NASDAQ, are valued at the closing bid prices. Debt securities that are considered bonds are valued by using the bid price provided by an independent pricing service or, if such prices are not available or in the judgment of KAFA such prices are stale or do not represent fair value, by an independent broker. For debt securities that are considered bank loans, the fair market value is determined by using the bid price provided by the agent or syndicate bank or principal market maker. When price quotes for securities are not available, or such prices are stale or do not represent fair value in the judgment of KAFA, fair market value will be determined using the Company's valuation process for securities that are privately issued or otherwise restricted as to resale.

Exchange-traded options and futures contracts are valued at the last sales price at the close of trading in the market where such contracts are principally traded or, if there was no sale on the applicable exchange on such day, at the mean between the quoted bid and ask price as of the close of such exchange.

The Company may hold securities that are privately issued or otherwise restricted as to resale. For these securities, as well as any security for which (a) reliable market quotations are not available in the judgment of KAFA, or (b) the independent pricing service or independent broker does not provide prices or provides a price that in the judgment of KAFA is stale or does not represent fair value, each shall be valued in a manner that most fairly reflects fair value of the security on the valuation date.

For the three months ended February 29, 2024, unless otherwise determined by the Valuation Designee, the following valuation process was used for such securities:

- **Valuation Designee.** The applicable investments are valued monthly by KAFA, as the Valuation Designee, with new investments valued at the time such investment was made. The applicable investments are valued by senior professionals of KAFA who comprise KAFA's Valuation Committee. KAFA will specify the titles of the persons responsible for determining the fair value of Company investments, including by specifying the particular functions for which they are responsible, and will reasonably segregate fair value determinations from the portfolio management of the Company such that the portfolio manager(s) may not determine, or effectively determine by exerting substantial influence on, the fair values ascribed to portfolio investments.
- **Valuation Firm.** Quarterly, a third-party valuation firm engaged by KAFA reviews the valuation methodologies and calculations employed for these securities, unless the aggregate fair value of such security is less than 0.1% of the Company's total assets.

At February 29, 2024, the Company held 10.5% of its net assets applicable to common stockholders (7.6% of total assets) in securities that were fair valued pursuant to these procedures (Level 3 securities). The aggregate fair value of these securities at February 29, 2024, was \$190,312. See Note 3 — Fair Value and Note 7 — Restricted Securities.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
(amounts in 000's, except share and per share amounts)  
**(UNAUDITED)**

E. *Security Transactions* — Security transactions are accounted for on the date securities are purchased or sold (trade date). Realized gains and losses are calculated using the specific identification cost basis method for GAAP purposes. For tax purposes, the Company utilizes the average cost method to compute the adjusted tax cost basis of its MLP securities.

F. *Return of Capital Estimates* — Dividends and distributions received from the Company's investments generally are comprised of income and return of capital. At the time such dividends and distributions are received, the Company estimates the amount of such payments that is considered investment income and the amount that is considered a return of capital. The Company estimates the return of capital portion of dividends and distributions received from investments based on historical information available and other information provided by certain investments. Return of capital estimates are adjusted to actual in the subsequent fiscal year when final tax reporting information related to the Company's investments is received.

The return of capital portion of the distributions is a reduction to investment income that results in an equivalent reduction in the cost basis of the associated investments and increases net realized gains (losses) and net change in unrealized gains (losses). If the distributions received by the Company exceed its cost basis (*i.e.*, its cost basis has been reduced to zero), the distributions are treated as realized gains.

The Company includes all distributions received on its Statement of Operations and reduces its investment income by (i) the estimated return of capital and (ii) the distributions in excess of cost basis, if any. Distributions received that were in excess of cost basis were treated as realized gains.

In accordance with GAAP, the return of capital cost basis reductions for the Company's investments are limited to the total amount of the cash distributions received from such investments.

The following table sets forth the Company's estimated return of capital portion of the dividends and distributions received from its investments that were not treated as distributions in excess of cost basis.

	<b>For the Three Months Ended February 29, 2024</b>
Dividends and distributions (before foreign taxes withheld of \$472 and excluding distributions in excess of cost basis) . . . . .	\$33,945
Dividends and distributions — % return of capital . . . . .	41%
Return of capital — attributable to net realized gains (losses) . . . . .	\$ 24
Return of capital — attributable to net change in unrealized gains (losses) . . . . .	<u>13,880</u>
Total return of capital . . . . .	<u>\$13,904</u>

G. *Investment Income* — The Company records dividends and distributions on the ex-dividend date. Interest income is recognized on the accrual basis, including amortization of premiums and accretion of discounts. When investing in securities with paid-in-kind interest, the Company will accrue interest income during the life of the security even though it will not be receiving cash as the interest is accrued. To the extent that interest income to be received is not expected to be realized, a reserve against income is established.

The Company may receive paid-in-kind and non-cash dividends and distributions in the form of additional units or shares from its investments. For paid-in-kind dividends, the additional units are not reflected in investment income during the period received, but are recorded as unrealized gains upon

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**(amounts in 000's, except share and per share amounts)**  
**(UNAUDITED)**

receipt. Non-cash distributions are reflected in investment income because the Company has the option to receive its distributions in cash or in additional units of the security. During the three months ended February 29, 2024, the Company did not receive any paid-in-kind dividends or non-cash distributions.

H. *Distributions to Stockholders* — Distributions to common stockholders are recorded on the ex-dividend date. Distributions to holders of MRP Shares are accrued on a daily basis. As required by the Distinguishing Liabilities from Equity topic of the FASB Accounting Standards Codification (ASC 480), the Company includes the accrued distributions on its MRP Shares as an operating expense due to the fixed term of this obligation. For tax purposes, payments made to the holders of the Company's MRP Shares are treated as dividends or distributions.

The characterization of the distributions paid to holders of MRP Shares and common stock as either a dividend (eligible to be treated as qualified dividend income) or a distribution (return of capital) is determined after the end of the fiscal year based on the Company's actual earnings and profits and may differ substantially from preliminary estimates.

I. *Partnership Accounting Policy* — The Company records its pro-rata share of the income (loss), to the extent of distributions it has received, allocated from the underlying partnerships and adjusts the cost basis of the underlying partnerships accordingly. These amounts are included in the Company's Statement of Operations.

J. *Taxes* — The Company, as a corporation, is obligated to pay federal and state income tax on its taxable income. The Company invests in MLPs, which generally are treated as partnerships for federal income tax purposes. As a limited partner in the MLPs, the Company includes its allocable share of the MLP's taxable income or loss in computing its own taxable income. Deferred income taxes reflect (i) taxes on unrealized gains (losses), which are attributable to the difference between fair value and tax cost basis, (ii) the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes and (iii) the net tax benefit of accumulated net operating and capital losses.

To the extent the Company has a deferred tax asset, consideration is given as to whether or not a valuation allowance is required. The need to establish a valuation allowance for deferred tax assets is assessed periodically by the Company based on the Income Tax Topic of the FASB Accounting Standards Codification (ASC 740), that it is more likely than not that some portion or all of the deferred tax asset will not be realized. In the assessment for a valuation allowance, consideration is given to all positive and negative evidence related to the realization of the deferred tax asset. This assessment considers, among other matters, the nature, frequency and severity of current and cumulative losses, forecasts of future profitability (which are highly dependent on future cash distributions from the Company's holdings), the duration of statutory carryforward periods and the associated risk that certain loss carryforwards may expire unused.

The Company may rely to some extent on information provided by portfolio investments, which may not necessarily be timely, to estimate taxable income allocable to the units/shares of such companies held in the portfolio and to estimate the associated current and/or deferred tax liability. Such estimates are made in good faith. From time to time, as new information becomes available, the Company modifies its estimates or assumptions regarding the deferred tax liability. See Note 6 — Income Taxes.

The Company may be subject to withholding taxes on foreign-sourced income and accrues such taxes when the related income is earned.

The Company utilizes the average cost method to compute the adjusted tax cost basis of its MLP securities.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**(amounts in 000's, except share and per share amounts)**  
**(UNAUDITED)**

The Company's policy is to classify interest and penalties associated with underpayment of federal and state income taxes, if any, as income tax expense on its Statement of Operations. Tax years subsequent to fiscal year 2017 remain open and subject to examination by the federal and state tax authorities. The Internal Revenue Service ("IRS") has opened an examination of fiscal years 2017 through 2020. The IRS audit is currently open though the Company does not believe there will be any material adjustment to the amount of tax owed as a result of this audit.

*K. Derivative Financial Instruments* — The Company may utilize derivative financial instruments in its operations and will do so in conformity with Rule 18f-4 under the 1940 Act.

**Interest rate swap contracts.** The Company may use hedging techniques such as interest rate swaps to mitigate potential interest rate risk on a portion of the Company's leverage. Such interest rate swaps would principally be used to protect the Company against higher costs on its leverage resulting from increases in interest rates. The Company does not hedge any interest rate risk associated with portfolio holdings. Interest rate transactions the Company may use for hedging purposes may expose it to certain risks that differ from the risks associated with its portfolio holdings. A decline in interest rates may result in a decline in the value of the swap contracts, which, everything else being held constant, would result in a decline in the net assets of the Company. In addition, if the counterparty to an interest rate swap defaults, the Company would not be able to use the anticipated net receipts under the interest rate swap to offset its cost of financial leverage.

Interest rate swap contracts are recorded at fair value with changes in value during the reporting period, and amounts accrued under the agreements, included as unrealized gains or losses in the Statement of Operations. Monthly cash settlements under the terms of the interest rate swap agreements or termination payments are recorded as realized gains or losses in the Statement of Operations. The Company generally values its interest rate swap contracts based on dealer quotations, if available, or by discounting the future cash flows from the stated terms of the interest rate swap agreement by using interest rates currently available in the market. See Note 8 — Derivative Financial Instruments.

**Option contracts.** The Company is also exposed to financial market risks including changes in the valuations of its investment portfolio. The Company may purchase or write (sell) call options. A call option on a security is a contract that gives the holder of the option, in return for a premium, the right to buy from the writer of the option the security underlying the option at a specified exercise price at any time during the term of the option.

The Company would realize a gain on a purchased call option if, during the option period, the value of such securities exceeded the sum of the exercise price, the premium paid and transaction costs; otherwise the Company would realize either no gain or a loss on the purchased call option. The Company may also purchase put option contracts. If a purchased put option is exercised, the premium paid increases the cost basis of the securities sold by the Company.

The Company may also write (sell) call options with the purpose of generating realized gains or reducing its ownership of certain securities. If the Company writes a call option on a security, the Company has the obligation upon exercise of the option to deliver the underlying security upon payment of the exercise price. The Company will only write call options on securities that the Company holds in its portfolio (*i.e.*, covered calls).

When the Company writes a call option, an amount equal to the premium received by the Company is recorded as a liability and is subsequently adjusted to the current fair value of the option written. Premiums received from writing options that expire unexercised are treated by the Company on the expiration date as realized gains from investments. If the Company repurchases a written call option prior to its exercise, the

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**(amounts in 000's, except share and per share amounts)**  
**(UNAUDITED)**

difference between the premium received and the amount paid to repurchase the option is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss. The Company, as the writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. See Note 8 — Derivative Financial Instruments.

L. *Short Sales* — A short sale is a transaction in which the Company sells securities it does not own (but has borrowed) in anticipation of or to hedge against a decline in the market price of the securities. To complete a short sale, the Company may arrange through a broker to borrow the securities to be delivered to the buyer. The proceeds received by the Company for the short sale are retained by the broker until the Company replaces the borrowed securities. In borrowing the securities to be delivered to the buyer, the Company becomes obligated to replace the securities borrowed at their market price at the time of replacement, whatever the price may be. The Company is liable for any interest, dividends or distributions paid on securities sold short.

The Company may also sell short “against the box” (i.e., the Company enters into a short sale as described above while holding an offsetting long position in the security which it sold short).

M. *Foreign Currency Translations* — The books and records of the Company are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis: (i) market value of investment securities, assets and liabilities at the rate of exchange as of the valuation date; and (ii) purchases and sales of investment securities, income and expenses at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Company does not isolate that portion of gains and losses on investments in equity and debt securities which is due to changes in the foreign exchange rates from that which is due to changes in market prices of equity and debt securities. Accordingly, realized and unrealized foreign currency gains and losses with respect to such securities are included in the reported net realized and unrealized gains and losses on investment transactions balances.

Net realized foreign exchange gains or losses represent gains and losses from transactions in foreign currencies and foreign currency contracts, foreign exchange gains or losses realized between the trade date and settlement date on security transactions, and the difference between the amounts of interest and dividends recorded on the Company’s books and the U.S. dollar equivalent of such amounts on the payment date.

Net unrealized foreign exchange gains or losses represent the difference between the cost of assets and liabilities (other than investments) recorded on the Company’s books from the value of the assets and liabilities (other than investments) on the valuation date.

N. *Indemnifications* — Under the Company’s organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Company. In addition, in the normal course of business, the Company enters into contracts that provide general indemnification to other parties. The Company’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred, and may not occur. However, the Company has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

O. *Offering and Debt Issuance Costs* — Offering costs incurred by the Company related to the issuance of its common stock reduce additional paid-in capital when the stock is issued. Costs incurred by the Company related to the issuance of its debt (credit facility, term loan or notes) or its preferred stock are capitalized and amortized over the period the debt or preferred stock is outstanding.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
(amounts in 000's, except share and per share amounts)  
**(UNAUDITED)**

The Company has classified the costs incurred to issue its term loan, notes and preferred stock as a deduction from the carrying value on the Statement of Assets and Liabilities. For the purpose of calculating the Company's asset coverage ratios pursuant to the 1940 Act, deferred issuance costs are not deducted from the carrying value of debt or preferred stock.

**3. Fair Value**

The Fair Value Measurement Topic of the FASB Accounting Standards Codification (ASC 820) defines fair value as the price at which an orderly transaction to sell an asset or to transfer a liability would take place between market participants under current market conditions at the measurement date. As required by ASC 820, the Company has performed an analysis of all assets and liabilities (other than deferred taxes) measured at fair value to determine the significance and character of all inputs to their fair value determination. Inputs are the assumptions, along with considerations of risk, that a market participant would use to value an asset or a liability. In general, observable inputs are based on market data that is readily available, regularly distributed and verifiable that the Company obtains from independent, third-party sources. Unobservable inputs are developed by the Company based on its own assumptions of how market participants would value an asset or a liability.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into the following three broad categories.

- *Level 1* — Valuations based on quoted unadjusted prices for identical instruments in active markets traded on a national exchange to which the Company has access at the date of measurement.
- *Level 2* — Valuations based on quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers.
- *Level 3* — Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Company's own assumptions that market participants would use to price the asset or liability based on the best available information.

The following table presents the Company's assets measured at fair value on a recurring basis at February 29, 2024, and the Company presents these assets by security type and description on its Schedule of Investments. Note that the valuation levels below are not necessarily an indication of the risk or liquidity associated with the underlying investment.

	<u>Total</u>	<u>Quoted Prices in Active Markets (Level 1)</u>	<u>Prices with Other Observable Inputs (Level 2)</u>	<u>Unobservable Inputs (Level 3)</u>
<b>Assets at Fair Value</b>				
Equity investments . . . . .	\$2,474,484	\$ 2,284,172	\$ —	\$ 190,312

The Company did not have any liabilities that were measured at fair value on a recurring basis using significant unobservable inputs (Level 3) at February 29, 2024.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
(amounts in 000's, except share and per share amounts)  
**(UNAUDITED)**

As of February 29, 2024, the Company had Notes outstanding with an aggregate principal amount of \$311,679 and 6,123,774 of MRP Shares outstanding with a total liquidation value of \$153,094. See Note 11 — Notes and Note 12 — Preferred Stock.

All of the Notes and MRP Shares were issued in private placements to institutional investors and are not listed on any exchange or automated quotation system. The Company determines the fair value of these instruments based on estimated market yields and credit spreads for comparable instruments with similar maturity, terms and structure.

The Company records these Notes and MRP Shares on its Statement of Assets and Liabilities at principal amount or liquidation value. As of February 29, 2024, the estimated fair values of these leverage instruments are as follows:

<u>Instrument</u>	<u>Principal Amount/ Liquidation Value</u>	<u>Fair Value</u>
Notes (Series GG, KK, OO through VV) .....	\$311,679	\$303,700
MRP Shares (Series R through W) .....	\$153,094	\$141,900

The following table presents the Company's assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the three months ended February 29, 2024.

Balance — November 30, 2023 .....	\$181,659
Purchases .....	—
Sales .....	—
Transfers out to Level 1 and 2 .....	—
Realized gains (losses) .....	—
Change in unrealized gains (losses), net .....	8,653
Balance — February 29, 2024 .....	<u>\$190,312</u>
Net change in unrealized gain (loss) of investments still held at February 29, 2024 .....	\$ 8,653

The \$8,653 of net unrealized gains relates to investments that were held during the period. The Company includes these unrealized gains and losses on the Statement of Operations — Net Change in Unrealized Gains (Losses).

**Valuation Techniques and Unobservable Inputs**

The Company owns cumulative convertible preferred units of Enterprise Products Partners L.P. ("EPD"). The convertible preferred units will be convertible by the holders into common units at any time after September 29, 2025, at a conversion rate calculated as the Liquidation Preference divided by 92.5% of the 5-day volume weighted average price of EPD's common units at the time of conversion. The convertible preferred units are redeemable at any time by EPD, at Redemption Prices ranging from 100% to 110% of Liquidation Preference based on the date of redemption. The convertible preferred units are senior to the underlying common units in terms of liquidation preference and priority of distributions. KAFA, as the Company's Valuation Designee, has determined that it is appropriate to value these convertible preferred units using a discounted cash flow analysis under two different scenarios and calculate a probability weighted valuation based on these scenarios. Under the first scenario, the valuation assumes that the Company holds the security until the fifth anniversary of the original issuance date (September 30, 2025) and assigns a 95% probability to this outcome. Under the second scenario, the valuation assumes the security is redeemed by EPD upon the next step-down in Redemption Price (September 30, 2024) and assigns a 5% probability to this outcome. To determine the appropriate discount rate for this analysis, KAFA estimates the credit spread for

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**(amounts in 000's, except share and per share amounts)**  
**(UNAUDITED)**

the convertible preferred units, which is based on (a) the credit spread of EPD's unsecured notes with a focus on its notes maturing February 2026 and (b) the credit spread of publicly traded fixed-rate preferred securities of similar investment grade issuers in the energy industry over their publicly traded notes. The Company's ability to sell the preferred units prior to redemption is subject to certain restrictions. As such, KAFA applies a 5% illiquidity discount to be amortized over an assumed five-year holding period to September 30, 2025. If the resulting valuation implies a price higher than the current redemption price, the valuation is limited to the current redemption price plus unpaid distributions.

The Company owns convertible preferred units of MPLX LP ("MPLX"). The convertible preferred units are convertible on a one-for-one basis into common units at the Company's option and are senior to the underlying common units in terms of liquidation preference and priority of distributions. In determining the fair value of the MPLX convertible preferred units, KAFA considers the value of the convertible preferred units on an as-converted basis, the value of any reported trades in the security, and the value using a convertible pricing model. The convertible pricing model takes into account the attributes of the convertible preferred units, including the preferred dividend, conversion ratio and call features, to determine the estimated value of such units. In using this model, KAFA estimates (i) the credit spread for the convertible preferred units, which is based on (a) the credit spread of the partnership's unsecured notes and (b) the credit spreads of similar publicly traded preferred securities over bonds with similar maturities, and (ii) the expected volatility for the underlying common units. In using the convertible pricing model, KAFA also assesses the additional yield that a buyer of this security would require to hold this security (relative to the yield implied by the convertible pricing model) due to the illiquid nature of the security. The range of additional yield required is informed by publicly reported trades in the security, if any, as well as the judgment of KAFA.

As of February 29, 2024, KAFA has determined to value the MPLX convertible preferred units on an as-converted basis based on the public market price of MPLX's common units.

Sentinel Midstream is a privately-held company that operates energy infrastructure assets near the Texas and Louisiana Gulf Coast which are referred to as Enercoast Energy Infrastructure ("EEI"). The Company is the owner of Series A-2 units which represent a membership interest in Sentinel Midstream ("Sentinel-EEI Series A-2 Units"). The Sentinel-EEI Series A-2 Units are pari passu with Series A-1 Units (together, "Series A Units"), and are senior to other classes of common equity in terms of liquidation preference and priority of distributions. The Series A Units are entitled to receive cash distributions beginning in the quarter ending June 30, 2024. Other classes of common equity participate in distributions only after the Series A Units have received cash distributions sufficient for Series A investors to realize a 10% annualized return (IRR).

As part of the process to determine the fair value of the Sentinel-EEI Series A-2 Units, KAFA utilizes two valuation methodologies. One of the methodologies is based on publicly-traded enterprise value to earnings before interest, taxes, depreciation, and amortization ("EBITDA") multiples for comparable companies and the second is based on a discounted cash flow model. A range of per share values is derived from these two methodologies. A per share value within the resulting range is then selected as the fair value.

The Company owns an investment in Streamline Innovations Holdings, Inc. ("Streamline") Series C Preferred Shares. The Company's Streamline Series C Preferred Shares are convertible into common equity at any time at the Company's option and are senior to common equity and Series A and Series B preferred shares in terms of liquidation preference and priority of distributions. Streamline Series C Preferred Shares are entitled to receive a quarterly dividend beginning in March 31, 2025, at an annual rate of 12.0%, which rate shall increase 2.0% each year thereafter to a maximum rate of 18.0%. Streamline Series C Preferred Shares are redeemable by Streamline at any time after March 31, 2025, at a price sufficient for the Company to achieve a 20.0% internal rate of return on its investment.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
(amounts in 000's, except share and per share amounts)  
**(UNAUDITED)**

As part of the process to determine the fair value of the Streamline Series C Preferred Shares, KAFA utilizes two valuation methodologies to determine the estimated value assuming such shares have been converted into common equity. One of the methodologies is based on publicly traded enterprise value to EBITDA multiples for comparable companies and the second is based on a discounted cash flow model. KAFA also utilizes a convertible pricing model valuation methodology that calculates the preferred security's embedded conversion option, and takes into consideration the Series C Preferred Shares seniority. A range of per share values is derived from these three methodologies. A per share value within the resulting range is then selected as the fair value.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period. Additionally, the fair value of the Company's investments may differ from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize.

The following table summarizes the significant unobservable inputs that the Company used to value its portfolio investments categorized as Level 3 as of February 29, 2024:

**Quantitative Table for Valuation Techniques**

Assets at Fair Value	Fair Value	Valuation Technique	Unobservable Inputs	Range		Average	
				Low	High		
EPD Convertible Preferred Units	\$ 40,490	- Discounted cash flow analysis	- Discount rate	6.3%	6.9%	6.6%	
			- Illiquidity discount	1.6%	1.6%	1.6%	
MPLX Convertible Preferred Units <sup>(1)</sup>	86,697	- Convertible pricing model	- Credit spread	3.8%	4.3%	4.0%	
			- Volatility	10%	20%	15%	
			- Yield spread	0.5%	1.0%	0.8%	
Sentinel-EEI Series A-2 Units	31,500	- EV/EBITDA multiples	- 2024 EV/EBITDA multiples	7.8x	8.8x	8.3x	
			- 2025 EV/EBITDA multiples	7.5x	8.5x	8.0x	
			- Illiquidity discount	15%	15%	15%	
			- Discounted cash flow analysis	- Discount rate	19.7%	19.7%	19.7%
Streamline Series C Preferred Shares	31,625	- EV/EBITDA multiples	- 2024 EV/EBITDA multiples	7.0x	8.0x	7.5x	
			- 2025 EV/EBITDA multiples	6.5x	7.5x	7.0x	
			- Illiquidity discount	15%	15%	15%	
			- Discounted cash flow analysis	- Discount rate	19.3%	19.3%	19.3%
			- Option pricing model	- Time to exit (years)	2	4	3
			- Volatility	33.6%	38.6%	36.1%	
			- Calculated equity value (\$ in millions)	\$277	\$339	\$308	
<b>Total</b>	<b>\$ 190,312</b>						

(1) As of February 29, 2024, MPLX convertible preferred units were valued on an as-converted basis based on the public market price of MPLX's common units.

**4. Risk Considerations**

The Company's investments are concentrated in the energy sector. A downturn in one or more industries within the energy sector, material declines in energy-related commodity prices, adverse political, legislative or regulatory developments or environmental, catastrophic or other events could have a larger impact on the Company than on an investment company that does not concentrate in the energy sector. The performance of companies in the energy sector may lag the performance of other sectors or the broader market as a whole. The Company also invests in securities of foreign issuers, predominantly those located in Canada and, to a lesser extent, Europe. The value of those investments will fluctuate with market conditions, currency exchange rates and the economic and political climates of the foreign countries in which the issuers operate or are domiciled. Additionally, to the extent that the Company invests a relatively high percentage of its assets in the securities of a limited number of issuers, the Company may be more susceptible than a more widely diversified investment company to any single economic, political or regulatory occurrence.

At February 29, 2024, the Company had the following investment concentrations:

<u>Category</u>	<u>Percent of Long-Term Investments</u>
Energy Companies .....	100.0%
Equity securities .....	100.0%
Energy Infrastructure Companies .....	95.7%
Largest single issuer .....	10.9%
Restricted securities .....	7.7%

For more information about the principal risks of investing in the Company, see Investment Objective, Policies and Risks in the Company's most recently filed annual report.

**5. Agreements and Affiliations**

A. *Administration Agreement* — On February 1, 2022, the Company entered into an amended administration and accounting agreement with Ultimus Fund Solutions, LLC ("Ultimus"). Pursuant to the agreement, Ultimus will continue to provide certain administrative and accounting services for the Company. The agreement has an initial term of three years and automatic one-year renewals unless earlier terminated by either party as provided under the terms of the agreement.

B. *Investment Management Agreement* — The Company has entered into an investment management agreement with KA Fund Advisors, LLC ("KAFA") under which KAFA, subject to the overall supervision of the Company's Board of Directors, manages the day-to-day operations of, and provides investment advisory services to, the Company. For providing these services, KAFA receives an investment management fee from the Company.

Upon completion of KYN's merger with KMF, KAFA and the Company entered into an amended fee waiver agreement (the "Tier Waiver") with KYN to reduce the asset levels at which the fee waivers take effect under the Tier Waiver. The breakpoints under the Tier Waiver were reset at the time of the merger such that the Company pays a management fee of 1.375% on average total assets up to \$2,282,690 (which was the pro forma amount of KYN and KMF total assets for purposes of calculating the management fee as of the closing of the merger); 1.250% on average total assets in excess of this amount and up to \$4,000,000; 1.125% on average total assets between \$4,000,000 and \$6,000,000; and 1.000% on average total assets greater than \$6,000,000. These tiered fee waivers result in a reduction to the effective management fee rate payable to KAFA as the Company's assets under management increase. The Tier Waiver has an initial

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**(amounts in 000's, except share and per share amounts)**  
**(UNAUDITED)**

3-year term and may be renewed annually thereafter upon approval of KAFA and the Company's Board of Directors (including a majority of the Company's directors who are not "interested persons" of the Company, as that term is defined in the 1940 Act (the "Independent Directors").

In addition to the Tier Waiver, KAFA also agreed to waive an additional amount of management fees (based on KYN and KMF assets at the closing of the merger) (the "Merger Waiver") such that pro forma management fees payable to KAFA would be equal to the aggregate management fee payable if KYN and KMF had remained standalone companies. The Merger Waiver has a term of three years from the closing of the merger (so long as KAFA remains the investment advisor to KYN) and was calculated to be \$606 per year based on KYN and KMF's assets under management at the closing of the merger. Any amount waived by KAFA pursuant to the Tier Waiver and/or Merger Waiver may not be recouped.

The investment management agreement has a current term through April 30, 2025 and may be renewed annually thereafter upon approval of KAFA and the Company's Board of Directors (including a majority of the Independent Directors). For the three months ended February 29, 2024, the Company paid management fees at an annual rate of 1.340% of the Company's average quarterly total assets (as defined in the investment management agreement).

For purposes of calculating the management fee the average total assets for each quarterly period are determined by averaging the total assets at the last day of that quarter with the total assets at the last day of the prior quarter. The Company's total assets are equal to the Company's gross asset value (which includes assets attributable to the Company's use of preferred stock, commercial paper or notes and other borrowings and excludes any net deferred tax asset), minus the sum of the Company's accrued and unpaid dividends and distributions on any outstanding common stock and accrued and unpaid dividends and distributions on any outstanding preferred stock and accrued liabilities (other than liabilities associated with borrowing or leverage by the Company and any accrued taxes, including, a deferred tax liability). Liabilities associated with borrowing or leverage by the Company include the principal amount of any borrowings, commercial paper or notes issued by the Company, the liquidation preference of any outstanding preferred stock, and other liabilities from other forms of borrowing or leverage such as short positions and put or call options held or written by the Company.

*C. Portfolio Companies* — From time to time, the Company may "control" or may be an "affiliate" of one or more of its portfolio companies, as each of these terms is defined in the 1940 Act. In general, under the 1940 Act, the Company would be presumed to "control" a portfolio company if the Company and its affiliates owned 25% or more of its outstanding voting securities and would be an "affiliate" of a portfolio company if the Company and its affiliates owned 5% or more of its outstanding voting securities. The 1940 Act contains prohibitions and restrictions relating to transactions between investment companies and their affiliates (including the Company's investment adviser), principal underwriters and affiliates of those affiliates or underwriters.

The Company believes that there are several factors that determine whether or not a security should be considered a "voting security" in complex structures such as limited partnerships of the kind in which the Company invests. The Company also notes that the Securities and Exchange Commission (the "SEC") staff has issued guidance on the circumstances under which it would consider a limited partnership interest to constitute a voting security. Under most partnership agreements, the management of the partnership is vested in the general partner, and the limited partners, individually or collectively, have no rights to manage or influence management of the partnership through such activities as participating in the selection of the managers or the board of the limited partnership or the general partner. As a result, the Company believes that many of the limited partnership interests in which it invests should not be considered voting securities. However, it is possible that the SEC staff may consider the limited partner

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**(amounts in 000's, except share and per share amounts)**  
**(UNAUDITED)**

interests the Company holds in certain limited partnerships to be voting securities. If such a determination were made, the Company may be regarded as a person affiliated with and controlling the issuer(s) of those securities for purposes of Section 17 of the 1940 Act.

In making such a determination as to whether to treat any class of limited partnership interests the Company holds as a voting security, the Company considers, among other factors, whether or not the holders of such limited partnership interests have the right to elect the board of directors of the limited partnership or the general partner. If the holders of such limited partnership interests do not have the right to elect the board of directors, the Company generally has not treated such security as a voting security. In other circumstances, based on the facts and circumstances of those partnership agreements, including the right to elect the directors of the general partner, the Company has treated those securities as voting securities. If the Company does not consider the security to be a voting security, it will not consider such partnership to be an “affiliate” unless the Company and its affiliates own more than 25% of the outstanding securities of such partnership. Additionally, certain partnership agreements give common unitholders the right to elect the partnership’s board of directors, but limit the amount of voting securities any limited partner can hold to no more than 4.9% of the partnership’s outstanding voting securities (*i.e.*, any amounts held in excess of such limit by a limited partner do not have voting rights). In such instances, the Company does not consider itself to be an affiliate if it owns more than 5% of such partnership’s common units.

There is no assurance that the SEC staff will not consider that other limited partnership securities that the Company owns and does not treat as voting securities are, in fact, voting securities for the purposes of Section 17 of the 1940 Act. If such determination were made, the Company will be required to abide by the restrictions on “control” or “affiliate” transactions as proscribed in the 1940 Act. The Company or any portfolio company that it controls, and its affiliates, may from time to time engage in certain of such joint transactions, purchases, sales and loans in reliance upon and in compliance with the conditions of certain exemptive rules promulgated by the SEC. The Company cannot make assurances, however, that it would be able to satisfy the conditions of these rules with respect to any particular eligible transaction, or even if the Company were allowed to engage in such a transaction, that the terms would be more or as favorable to the Company or any company that it controls as those that could be obtained in an arm’s length transaction. As a result of these prohibitions, restrictions may be imposed on the size of positions that may be taken for the Company or on the type of investments that it could make.

*Sentinel Midstream Highline JV Holdings LLC* — Pursuant to the terms of the Sentinel-EEI Series A-2 Units, Kayne Anderson has the right to designate one director of Sentinel Midstream for so long as Kayne Anderson and its affiliates continue to beneficially own at least 70% of its initial investment and at least 10% of the outstanding Series A units. Ron M. Logan is a Senior Managing Director of Kayne Anderson and serves as the Kayne Anderson appointed director of Sentinel Midstream. The Company believes it is an affiliate of Sentinel Midstream under the 1940 Act by virtue of the Company’s ownership interest in Sentinel Midstream and Kayne Anderson’s director designation right.

*Streamline Innovations Holdings, Inc.* — Pursuant to the terms of the Streamline Series C Preferred Shares, Kayne Anderson has the right to designate one director of Streamline for so long as Kayne Anderson and its affiliates continue to beneficially own at least 50% of the Streamline Series C Preferred Shares. Ron M. Logan is a Senior Managing Director of Kayne Anderson and serves as the Kayne Anderson appointed director of Streamline. The Company believes that it is an affiliate of Streamline under the 1940 Act by virtue of the Company’s ownership interest in Streamline and Kayne Anderson’s director designation right.

The following table summarizes the Company's investments in affiliates as of and for the three months ended February 29, 2024:

<u>Investment<sup>(1)</sup></u>	<u>No. of Shares/ Units<sup>(2)</sup> (in 000's)</u>	<u>Value</u>	<u>Dividends/ Distributions Received</u>	<u>Net Realized Gains (Losses)</u>	<u>Net Change in Unrealized Gains (Losses)</u>
Sentinel Midstream Highline JV Holdings LLC . .	1,500	\$ 31,500	\$ —	\$ —	\$ 900
Streamline Innovations Holdings, Inc.....	5,500	31,625	—	—	3,300
Total .....		<u>\$ 63,125</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 4,200</u>

(1) See Schedule of Investments for investment classifications.

(2) During the three months ended February 29, 2024, there were no purchases or sales of any affiliates.

**6. Income Taxes**

The Company's taxes include current and deferred income taxes. Current income taxes reflect the estimated income tax liability or asset of the Company as of a measurement date. Deferred income taxes reflect (i) taxes on net unrealized gains (losses), which are attributable to the difference between fair market value and tax cost basis, (ii) the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes and (iii) the net tax benefit of accumulated net operating losses and capital losses, if any.

As of February 29, 2024, the components of the Company's deferred tax assets and liabilities are as follows:

Current tax receivable, net .....	\$ 7,846
Deferred tax assets:	
Capital loss carryforward — Federal .....	\$ 45,808
Capital loss carryforward — State .....	2,582
Net operating loss carryforward — Federal .....	1,325
Net operating loss carryforward — State .....	393
Deferred interest expense limitation .....	776
Valuation allowance .....	(20,130)
Deferred tax liabilities:	
Net unrealized gains on investment securities .....	(182,188)
Total deferred income tax asset (liability), net .....	<u>\$ (151,434)</u>

During the three months ended February 29, 2024, the Company made \$396 of tax payments (net of refunds received).

As of February 29, 2024, the Company had a net current income tax receivable of \$7,846, which was comprised of a net state tax asset of \$1,538 and a net federal tax asset of \$6,308.

As of February 29, 2024, the Company had capital loss carryforwards of \$220,784 (federal and state deferred tax asset of \$45,808 and \$2,582, respectively). Realization of capital loss carryforwards is dependent on generating sufficient capital gains prior to their expiration. The majority of these capital loss carryforwards, other than the capital loss carryforwards associated with KYN's merger with KMF (see below), will expire if not used by fiscal 2025.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**(amounts in 000's, except share and per share amounts)**  
**(UNAUDITED)**

As of February 29, 2024, the Company had a federal net operating loss carryforward of \$6,310 (subject to the Section 382 limitation described below; federal deferred tax asset of \$1,325). This net operating loss can be carried forward indefinitely.

On March 4, 2022, the Company completed its merger with Fiduciary/Claymore Energy Infrastructure Fund ("FMO"). The merger qualified as a tax-free reorganization under Section 368(a) of the Internal Revenue Code (the "Code"). As of the merger date, the Company acquired all of the tax attributes of FMO. Regulations under Section 382 of the Code limit the use of tax attributes subsequent to ownership changes until FMO's net operating loss and capital loss carryforwards are utilized or expire unused. The annual Section 382 limitation was calculated as of the merger date to be \$1,663.

As of the merger date, FMO had \$75,869 of unrealized built-in gains for tax purposes. In addition to the Section 382 limitation, the Company will be able to utilize FMO's capital loss carryforwards up to the amount of built-in gains that are realized (prior to the statutory expiration of the capital loss carryforward period).

As of the merger date, FMO had established a valuation allowance on the amount of capital losses that exceeded its net unrealized built-in gain as of the same date. As a result of the limitations on these losses post-merger, the Company has written off the deferred tax asset (and removed the valuation allowance) associated with the losses that exceeded (1) the built-in gains as of the merger date and (2) the portion of losses that will become available through the annual Section 382 limitation (prior to the statutory expiration of the capital loss carryforward period). Post-merger, \$82,168 of capital losses and \$6,310 of net operating losses will be available to the Company subject to the limitations described above.

On November 13, 2023, the Company completed its merger with KMF. The merger qualified as a tax-free reorganization under Section 368(a) of the Code. Upon completion of the merger, all pre-Merger KMF capital losses (estimated as of the closing of the merger to be \$347,390) were acquired by KYN and are now subject to a five year carryforward period (which expires in fiscal 2028). In addition, as of the closing of the merger, KMF had an unrealized loss on its portfolio of investments of approximately \$11,635. All pre-merger losses acquired from KMF, including the capital losses and the unrealized loss on investments, are subject to limitations as set forth in Section 382 of the Code which limit the amount of losses that can be utilized after a change in ownership. The annual Section 382 limitation for KMF losses was calculated as of the merger date to be \$15,587 per year (with such amount pro-rated for the year in which the merger closed). In addition, limitations under Section 384 of the Code further limit any losses acquired for a period of five years following the merger such that pre-merger losses of KMF may not be utilized to offset pre-merger gains of KYN (nor could pre-merger gains of KMF be offset against pre-merger losses of KYN).

As a result of limitations on these losses post-merger, the Company has written off the deferred tax asset associated with capital losses that exceed the portion of losses that will become available through the annual Section 382 limitation (prior to the statutory expiration of the capital loss carryforward period). Post-merger, \$78,670 of capital losses and \$11,635 of unrealized losses will be available to the Company subject to limitations described. Capital loss carryforwards acquired in the merger with KMF will expire if not used by fiscal 2028.

The Company has established a valuation allowance against all of the losses acquired in the KMF merger as their potential future economic benefit is (1) dependent upon the realization of capital gains post-merger (which may or may not occur) prior to the expiration of the capital loss carryforward period and (2) dependent upon future asset appreciation post-merger (which may or may not occur).

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
(amounts in 000's, except share and per share amounts)  
**(UNAUDITED)**

The Company periodically reviews the recoverability of its deferred tax assets based on the weight of available evidence. When assessing the recoverability of its deferred tax assets, significant weight is given to the effects of potential future realized and unrealized gains on investments and the period over which these deferred tax assets can be realized.

Based on the Company's assessment as of February 29, 2024, it has determined that it is not more likely than not that all of its deferred tax assets would be realized through future taxable income of the appropriate character. Accordingly, a valuation allowance of \$20,130 has been established (which is primarily associated with the valuation allowance on losses acquired in the merger with KMF). For the three months ended February 29, 2024, there has been no change in the valuation allowance.

The Company will continue to review and assess the need for a valuation allowance in the future. Significant variability in the fair value of its portfolio of investments may change the Company's assessment regarding the recoverability of its deferred tax assets. If a further valuation allowance is required to reduce any deferred tax asset in the future, or if a change in a valuation allowance is necessary, it could have a material impact on the Company's net asset value and results of operations in the period of adjustment.

Total income taxes were different from the amount computed by applying the federal statutory income tax rate of 21% to the net investment income (loss) and realized and unrealized gains (losses) on investments before taxes as follows:

	<b>For the Three Months Ended February 29, 2024</b>
Computed federal income tax expense at 21% .....	\$ 18,110
State income tax expense, net of federal tax .....	724
Foreign tax credit .....	(472)
Dividend received deduction, non-deductible distributions on MRP Shares and other, net .....	(464)
Total income tax expense .....	<u>\$ 17,898</u>

As a limited partner of MLPs, the Company includes its allocable share of such MLP's income or loss in computing its own taxable income or loss. Additionally, for income tax purposes, the Company reduces the cost basis of its MLP investments by the cash distributions received, and increases or decreases the cost basis of its MLP investments by its allocable share of the MLP's income or loss. During the three months ended February 29, 2024, the Company increased its tax cost basis by approximately \$4,939 due to 2023 net allocated income (after considering Section 163(j) limitations on the deduction for business interest expense) from its MLP investments.

The Company utilizes the average cost method to compute the adjusted tax cost basis of its MLP securities.

As of February 29, 2024, the cost basis of investments for federal income tax purposes was \$1,655,482. The cost basis for federal income tax purposes is \$562,764 lower than the cost basis for GAAP reporting purposes primarily due to the additional basis adjustments attributable to the

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
(amounts in 000's, except share and per share amounts)  
**(UNAUDITED)**

Company's share of the cumulative allocated losses from its MLP investments. At February 29, 2024, gross unrealized appreciation and depreciation of investments and options, if any, for federal income tax purposes were as follows:

Gross unrealized appreciation of investments (including options, if any) .....	\$ 891,872
Gross unrealized depreciation of investments (including options, if any) .....	<u>(57,535)</u>
Net unrealized appreciation of investments before foreign currency related translations .....	834,337
Unrealized depreciation on foreign currency related translations .....	<u>(6)</u>
Net unrealized appreciation of investments .....	<u>\$ 834,331</u>

Distributions in the amount of \$4,322 paid to holders of MRP Shares and \$112,989 paid to common stockholders for the fiscal year ended November 30, 2023, were characterized as dividends (eligible to be treated as qualified dividend income). These characterizations are based on the Company's earnings and profits.

**7. Restricted Securities**

From time to time, the Company's ability to sell certain of its investments is subject to certain legal or contractual restrictions. For instance, private investments that are not registered under the Securities Act of 1933, as amended (the "Securities Act"), cannot be offered for public sale in a non-exempt transaction without first being registered. In other cases, certain of the Company's investments have restrictions such as lock-up agreements that preclude the Company from offering these securities for public sale.

At February 29, 2024, the Company held the following restricted investments:

Investment	Acquisition Date	Type of Restriction	Number of Units (in 000's)	Cost Basis (GAAP)	Fair Value	Fair Value Per Unit	Percent of Net Assets	Percent of Total Assets
<b>Level 3 Investments<sup>(1)</sup></b>								
EPD Convertible Preferred Units .....	(2)	(3)	40	\$ 36,785	\$ 40,490	\$ 1,001.94	2.2%	1.6%
MPLX Convertible Preferred Units .....	5/13/16	(3)	2,255	72,217	86,697	38.44	4.8	3.4
Sentinel-EEI Series A-2 Units ..	11/30/23	(4)	1,500	30,600	31,500	21.00	1.7	1.3
Streamline Series C Preferred Shares .....	(2)	(4)	5,500	<u>27,480</u>	<u>31,625</u>	5.75	<u>1.8</u>	<u>1.3</u>
Total of all restricted securities .....				<u>\$ 167,082</u>	<u>\$ 190,312</u>		<u>10.5%</u>	<u>7.6%</u>

- (1) Securities are valued using inputs reflecting the Company's own assumptions as more fully described in Note 2 — Significant Accounting Policies and Note 3 — Fair Value.  
(2) Security was acquired at various dates in current and/or prior fiscal years.  
(3) Unregistered or restricted security of a publicly-traded company.  
(4) Unregistered or restricted security of a private company.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
(amounts in 000's, except share and per share amounts)  
**(UNAUDITED)**

**8. Derivative Financial Instruments**

As required by the Derivatives and Hedging Topic of the FASB Accounting Standards Codification (ASC 815), the following are the derivative instruments and hedging activities of the Company. See Note 2 — Significant Accounting Policies.

**Option Contracts** — For the three months ended February 29, 2024, the Company did not have any option contracts outstanding.

**Interest Rate Swap Contracts** — As of February 29, 2024, the Company did not have any interest rate swap contracts outstanding.

As of February 29, 2024, the Company held no derivative instruments.

The following table sets forth the effect of the Company's derivative instruments on the Statement of Operations:

	Location of Gains/(Losses) on Derivatives Recognized in Income	For the Three Months Ended February 29, 2024	
		Net Realized Gains/(Losses) on Derivatives Recognized in Income	Change in Unrealized Gains/(Losses) on Derivatives Recognized in Income
<b>Derivatives Not Accounted for as Hedging Instruments</b>			
Securities sold short . . . . .	Securities sold short	\$ 1,148	\$ —

**9. Investment Transactions**

For the three months ended February 29, 2024, the Company purchased and sold securities in the amounts of \$179,692 and \$185,868 (excluding short-term investments and securities sold short, if any).

**10. Credit Facility and Term Loan**

On February 22, 2024, the Company entered into a new \$135,000 unsecured revolving credit facility (the "Credit Facility"). The Credit Facility matures on February 20, 2025 and replaces the Company's \$175,000 unsecured revolving credit facility that was scheduled to mature on February 23, 2024. The interest rate on outstanding borrowings under the Credit Facility may vary between the secured overnight financing rate ("SOFR") plus 1.40% and SOFR plus 2.25%, depending on the Company's asset coverage ratios. The Company pays a fee of 0.20% per annum on any unused amounts of the Credit Facility.

For the three months ended February 29, 2024, the average amount of borrowings outstanding under the Company's credit facilities was \$18,604 with a weighted average interest rate of 7.11%. As of February 29, 2024, the Company did not have any borrowings outstanding under the Credit Facility.

As of February 29, 2024, the Company had a \$50,000 unsecured term loan (the "Term Loan") that matures on August 6, 2024. The interest rate on \$25,000 of the Term Loan is fixed at a rate of 1.735% and the interest rate on the remaining \$25,000 is SOFR plus 1.40%. Amounts repaid under the Term Loan cannot be reborrowed.

As of February 29, 2024, \$50,000 was borrowed under the Term Loan at a weighted average interest rate of 4.23%. As of February 29, 2024, the Company had \$36 of unamortized Term Loan issuance costs.

As of February 29, 2024, the Company was in compliance with all financial and operational covenants required by the Credit Facility and Term Loan. See Financial Highlights for the Company's asset coverage ratios under the 1940 Act.

**(UNAUDITED)**

**11. Notes**

At February 29, 2024, the Company had \$311,679 aggregate principal amount of Notes outstanding. On February 21, 2024, the Company reached an agreement for the private placement of \$75,000 of new Notes. This issuance is expected to occur during May 2024 and is comprised of two series of Notes: (1) \$35,000 Series WW Notes with a 5.65% fixed interest rate and May 2031 maturity and (2) \$40,000 of Series XX Notes with a 5.79% fixed interest rate and May 2034 maturity.

The table below sets forth a summary of the issuances and key terms of each series of Notes outstanding during the three months ended February 29, 2024.

Series	Principal Outstanding November 30, 2023	Principal Issued	Principal Outstanding February 29, 2024	Unamortized Issuance Costs	Estimated Fair Value February 29, 2024	Fixed/Floating Interest Rate	Maturity
GG	\$ 21,419	\$ —	\$ 21,419	\$ 25	\$ 21,000	3.67%	4/16/25
KK	32,247	—	32,247	17	32,100	3.93%	7/30/24
OO	14,778	—	14,778	12	14,600	3.46%	10/29/24
PP	50,000	—	50,000	200	51,000	3-month SOFR + 151 bps	6/19/26
QQ	20,000	—	20,000	55	19,000	1.81%	6/19/25
RR	45,000	—	45,000	315	42,500	4.57%	5/18/32
SS	45,000	—	45,000	341	41,800	4.67%	8/2/34
TT	18,235	—	18,235	28	17,700	3.82%	8/8/25
UU	40,000	—	40,000	346	38,700	5.18%	3/29/33
VV	—	25,000	25,000	294	25,300	5.79%	1/10/34
	<u>\$286,679</u>	<u>\$ 25,000</u>	<u>\$311,679</u>	<u>\$ 1,633</u>	<u>\$303,700</u>		

Holders of the fixed rate Series GG, KK, and OO through SS Notes are entitled to receive cash interest payments semi-annually (on June 19 and December 19) at the fixed rate. Holders of the floating rate Notes are entitled to receive cash interest payments quarterly (on March 19, June 19, September 19 and December 19) at the floating rate. Holders of the fixed rate Series TT through VV Notes are entitled to receive cash interest payments semi-annually (on February 13 and August 13) at the fixed rate. As of February 29, 2024, the weighted average interest rate on the outstanding Notes was 4.73%.

As of February 29, 2024, each series of Notes was rated “AAA” by Kroll Bond Rating Agency (“KBRA”). In the event the credit rating on any series of Notes falls below “A-”, the interest rate on such series will increase by 1% during the period of time such series is rated below “A-”. The Company is required to maintain a current rating from one rating agency with respect to each series of Notes and is prohibited from having any rating of less than investment grade (“BBB-”) with respect to each series of Notes.

The Notes were issued in private placement offerings to institutional investors and are not listed on any exchange or automated quotation system. The Notes contain various covenants related to other indebtedness, liens and limits on the Company’s overall leverage. Under the 1940 Act and the terms of the Notes, the Company may not declare dividends or make other distributions on shares of its common stock or make purchases of such shares if, at any time of the declaration, distribution or purchase, asset coverage with respect to senior securities representing indebtedness (including the Notes) would be less than 300%.

The Notes are redeemable in certain circumstances at the option of the Company. The Notes are also subject to a mandatory redemption to the extent needed to satisfy certain requirements if the Company fails to meet an asset coverage ratio required by law and is not able to cure the coverage deficiency by the applicable deadline.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
(amounts in 000's, except share and per share amounts)  
**(UNAUDITED)**

The Notes are unsecured obligations of the Company and, upon liquidation, dissolution or winding up of the Company, will rank: (1) senior to all of the Company's outstanding preferred shares; (2) senior to all of the Company's outstanding common shares; (3) on parity with any unsecured creditors of the Company and any unsecured senior securities representing indebtedness of the Company; and (4) junior to any secured creditors of the Company.

At February 29, 2024, the Company was in compliance with all covenants under the Notes agreements.

**12. Preferred Stock**

At February 29, 2024, the Company had 6,123,774 shares of MRP Shares outstanding, with a total liquidation value of \$153,094 (\$25.00 per share liquidation value).

The table below sets forth a summary of the key terms of each series of MRP Shares outstanding at February 29, 2024.

Series	Liquidation Value November 30, 2023	Unamortized Issuance Costs	Estimated Fair Value February 29, 2024	Fixed/Floating Interest Rate	Mandatory Redemption Date
R	\$ 41,828	\$ 258	\$ 38,800	3.38%	2/11/27
S	49,775	551	43,900	3.60%	2/11/30
T	20,000	307	18,800	5.07%	8/2/32
U	9,491	28	9,300	4.07%	12/1/24
V	20,000	167	20,100	3-month SOFR + 201 bps	6/1/26
W	12,000	121	11,000	2.44%	9/1/26
	<u>\$ 153,094</u>	<u>\$ 1,432</u>	<u>\$ 141,900</u>		

Holders of the MRP Shares are entitled to receive cumulative cash dividend payments on the first business day following each quarterly period (the last day of February, May 31, August 31 and November 30).

As of February 29, 2024, each series of MRP Shares was rated "A+" by KBRA. The dividend rate on the Company's MRP Shares will increase if the credit rating is downgraded below "A" (as determined by the lowest credit rating assigned). Further, the annual dividend rate for all series of MRP Shares will increase by 4.0% if no ratings are maintained, and the annual dividend rate will increase by 5.0% if the Company fails to make a dividend or certain other payments.

The MRP Shares rank senior to all of the Company's outstanding common shares and on parity with any other preferred stock. The MRP Shares are redeemable in certain circumstances at the option of the Company and are also subject to a mandatory redemption if the Company fails to meet a total leverage (debt and preferred stock) asset coverage ratio of 225%.

Under the terms of the MRP Shares, the Company may not declare dividends or pay other distributions on shares of its common stock or make purchases of such shares if, at any time of the declaration, distribution or purchase, asset coverage with respect to total leverage would be less than 225%.

The holders of the MRP Shares have one vote per share and will vote together with the holders of common stock as a single class except on matters affecting only the holders of MRP Shares or the holders of common stock. The holders of the MRP Shares, voting separately as a single class, have the right to elect at least two directors of the Company.

At February 29, 2024, the Company was in compliance with the asset coverage requirement of its MRP Shares.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
(amounts in 000's, except share and per share amounts)  
**(UNAUDITED)**

**13. Common Stock**

At February 29, 2024, the Company had 193,876,226 shares of common stock authorized and 169,126,038 shares outstanding. As of February 29, 2024, Kayne Anderson Capital Advisors, L.P. (“KACALP”) owned 1,614,122 shares of the Company.

During the three months ended February 29, 2024, there were no common stock transactions. Transactions in common shares for the fiscal year ended November 30, 2023, were as follows:

Shares outstanding at November 30, 2022. . . . .	136,131,530
Shares issued in connection with merger of KMF. . . . .	<u>32,994,508</u>
Shares outstanding at November 30, 2023. . . . .	<u>169,126,038</u>

**14. Subsequent Events**

On March 26, 2024, the Company declared a quarterly distribution of \$0.22 per common share for the first quarter. The total distribution of \$37,208 was paid April 12, 2024. Of this total, pursuant to the Company’s dividend reinvestment plan, \$3,517 was reinvested into the Company through open market purchases of common stock.

The Company has performed an evaluation of subsequent events through the date the financial statements were issued and has determined that no additional items require recognition or disclosure.

**KAYNE ANDERSON ENERGY INFRASTRUCTURE FUND, INC.**  
**GLOSSARY OF KEY TERMS**

This glossary contains definitions of certain key terms, as they are used in our investment policies and as described in this report. These definitions may not correspond to standard sector definitions.

*“Energy Assets”* means Energy Infrastructure Assets and other assets that are used in the energy sector, including assets used in exploring, developing, producing, generating, transporting, transmitting, storing, gathering, processing, fractionating, refining, distributing, mining or marketing of natural gas, natural gas liquids, crude oil, refined products, coal, electricity or water.

*“Energy Companies”* means companies that own and/or operate Energy Assets or provide energy-related services. For purposes of this definition, this includes companies that (i) derive at least 50% of their revenues or operating income from operating Energy Assets or providing services for the operation of such assets or (ii) have Energy Assets that represent the majority of their assets.

*“Energy Infrastructure Assets”* means (a) Midstream Assets, (b) Renewable Infrastructure Assets and (c) Utility Assets.

*“Energy Infrastructure Companies”* consists of (a) Midstream Energy Companies, (b) Renewable Infrastructure Companies and (c) Utility Companies.

*“Master Limited Partnerships”* or *“MLPs”* means limited partnerships and limited liability companies that are publicly traded and are treated as partnerships for federal income tax purposes.

*“Midstream Assets”* means assets used in energy logistics, including, but not limited to, assets used in (a) transporting, storing, gathering, processing, fractionating, distributing, or marketing of natural gas, natural gas liquids, crude oil, refined products or water produced in conjunction with such activities or (b) the capture, transportation or sequestration of carbon dioxide.

*“Midstream Energy Companies”* means companies that primarily own and operate Midstream Assets. Such companies may be structured as Master Limited Partnerships or taxed as corporations. For purposes of this definition, this includes companies that (i) derive at least 50% of their revenue or operating income from operating Midstream Assets or providing services for the operation of such assets or (ii) have Midstream Assets that represent the majority of their assets.

*“Renewable Infrastructure Assets”* means assets used in the generation, production, distribution, transportation, transmission, storage and marketing of energy including, but not limited to, electricity, steam, natural gas or transportation fuels, from renewable sources such as solar, wind, flowing water (hydroelectric power), geothermal, biomass and organic waste.

*“Renewable Infrastructure Companies”* means companies that own and/or operate Renewable Infrastructure Assets. For purposes of this definition, this includes companies that (i) derive at least 50% of their revenues or operating income from operating Renewable Infrastructure Assets or providing services for the operation of such assets or (ii) have Renewable Infrastructure Assets that represent the majority of their assets.

*“Utility Assets”* means assets, other than Renewable Infrastructure Assets, that are used in the generation, production, distribution, transportation, transmission, storage and marketing of energy, including, but not limited to, electricity, natural gas and steam.

*“Utility Companies”* means companies that own and/or operate Utility Assets. For purposes of this definition, this includes companies that (i) derive at least 50% of their revenues or operating income from operating Utility Assets or providing services for the operation of such assets or (ii) have Utility Assets that represent the majority of their assets.
